Preliminary Evaluation of Design Documentation created by Team Lime

Evaluated by Team Russet

Criterion	Approx % of the grade	Our score	Comments
Documentation	40%	Excellent(100%)	The General Description, Wireframes, UML Use Case, UML Class and UML Activity Diagrams are well-prepared, meaningful and describe the main functionality of the app clearly.
Specification	40%	Excellent(100%)	No details of the assignment specifications are violated. They have included all the required details of Lab13 in the design documents.
Readability and Correctness	20%	Excellent(100%)	UML standards and symbols are used correctly, and the UML diagrams are organized and comprehensive, clearly showing the design of the main functionality.
